Allyson R. Hatton, Reg. No. 54,154

Commissioner for Patents

TERMINAL DISCLAIMER UNDER 37 CFR §§3.73(b) AND 1.321(c)

The above application is the U.S. national phase application of International Application No. PCT/GB03/00062, filed January 10, 2003. Pursuant to 37 CFR §3.73(b), Oregon Health and Science University, an academic institution, and Imperial Innovations Limited, a corporation, certify that they are the assignees of the entire right, title, and interest in the above application by virtue of an assignment from the inventors of the above-referenced application to Oregon Health and Science University and Imperial College Innovations Limited, recorded in the U.S. Patent and Trademark Office (U.S.P.T.O.) at Reel 016231, Frame 0001, on July 7, 2005. Imperial College Innovations Limited changed its name to Imperial Innovations Limited, and this name change was recorded in the U.S.P.T.O. at Reel 019886, Frame 0683, on September 26, 2007.

The undersigned has reviewed all the documents in the chain of title of the above-identified application and to the best of undersigned's knowledge and belief, title is in the assignees identified above.

The undersigned (whose titles are supplied below) are empowered to act on behalf of the assignees.

Pursuant to 37 CFR §1.321(c), and to obviate a double patenting rejection, the assignees identified above hereby waive and disclaim the terminal portion of the term of the entire patent to be granted upon the above identified application subsequent to the expiration date of U.S. Patent Number 7,459,432, provided that any patent granted on the above identified application

shall be enforceable only for and during such period that it is commonly owned with U.S. Patent Number 7,459,432.

The assignees identified above do not disclaim any terminal part of any patent granted on the above identified application prior to the expiration date of the full statutory term of U.S. Patent Number 7,459,432 in the event that it later: expires for failure to pay a maintenance fee, is held unenforceable, is found invalid, is statutorily disclaimed in whole or terminally disclaimed under 37 CFR §1.321(a), has all claims cancelled by a reexamination certificate, or is otherwise terminated prior to expiration of its statutory term, except for the separation of legal title as stated above. Assignee herein does not disclaim or otherwise affect any part of U.S. Patent Number 7,459,432.

Any patent granted on the above referenced application or any patent subject to a reexamination proceeding shall be enforceable only for and during such period that said patent is commonly owned with the application or patent which formed the basis for the judicially created double patenting. This agreement runs with any patent granted on the instant application and is binding upon the grantee, its successors or assigns.

The required fee pursuant to 37 CFR § 1.20(d) is being paid concurrently herewith on the Electronic Filing System (EFS) by way of Deposit Account authorization. Please apply any other charges or credits to Deposit Account No. 50-2762, referencing Attorney Docket No. W2023-7044US.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.
